

**RA BRIEF**  
**FLORIDA ASSUMPTION OF STATE 404 PROGRAM**

**Date Updated:** 8/23/2018    **Date Original Prepared:** 8/8/2018    **Priority:** 3

**EPA Goal Supported:** Cooperative Federalism, Rule of Law and Process

**Issue:** 404 Assumption by the State of Florida

**Location:** State of Florida

**Context:**

1. Involved Parties: EPA, Corps, USFWS, NMFS, FDEP.
2. Interested parties: Governor Rick Scott, the White House, other states, media, and various stakeholders (mining, developers, Tribes, environmental NGOs).
3. Florida is working on an official request to assume administration of a CWA section 404 program. Before making their request, Florida must pass a rule that will set up the required program elements. The Florida rulemaking timeline and possible legal challenges to that rulemaking, as well as finalizing the Corps/FDEP MOA which identifies which waters the state will assume and which waters the Corps will retain, are currently driving the timeline.

4.

## Ex. 5 Deliberative Process (DP)

**Critical Messages:**

1. Florida may submit a package requesting state assumption of CWA 404 program administration as early as September 1. For the multiple components of the assumption package that EPA has not yet seen or reviewed in draft, FDEP has indicated that they will share such draft components by August 31. In the event Florida submits a formal package by September 1, EPA staff will have insufficient time to fully review and identify any problems or issues. Assisting FDEP with the development of a 404 assumption program remains a high priority for Region 4. EPA staff are actively communicating with Florida staff to help ensure the State's process for submission and the EPA's review process will be conducted as efficiently as possible.
2. Legal challenges to the currently proposed state rule could delay Florida's timeline for submittal. Florida staff have indicated they intend to proceed with a Notice of Proposed Rule as the next step in their rulemaking process for 404 assumption. WPD staff are not certain at what point during the rulemaking process that Florida will formally submit their 404 assumption package to the EPA.

Ex. 5 Deliberative Process (DP)

## Ex. 5 Deliberative Process (DP)

3. Upon receipt of a complete request package, EPA's 120-day statutory review must include a public hearing, a 45-day public comment period, and consideration of comments received from the public, USACE, USFWS, and NMFS.

4.

## Ex. 5 Deliberative Process (DP)

5. Florida and the Corps of Engineers are negotiating a memorandum of agreement, which among other things will identify the River and Harbors Act Section 10 waters to be retained by the Corps of Engineers and the administrative boundary for adjacent wetlands to such waters. Florida and the Corps are striving to complete the MOA by September 1.

6.

## Ex. 5 Deliberative Process (DP)

7. Florida is developing implementation procedures regarding their process for delineating wetlands, which will provide clarity regarding the relationship between waters of the state and waters of the United States. FDEP is making good progress on this effort and is considering informal input from the Corps and the EPA.

### Considerations:

*Components of FDEP's draft assumption package not yet shared with the EPA*

1. The EPA understands that FDEP will share draft documents with the EPA for informal review by August 31, which we believe may include the following:
  - a. Draft letter from the Governor;
  - b. Draft complete program description (e.g., resources needed to administer the program, updated regulatory cross-walk, final delineation implementation strategy)
  - c. Draft Attorney General Statement;
  - d. Updated version of draft MOA between the State and the Corps; and
  - e. Updated version of the rules that FDEP intends to use to implement the program
2. FDEP has invited the EPA to meet in Tallahassee during the week of September 3, where we expect to discuss these documents.

# Ex. 5 Deliberative Process (DP)

## FLORIDA ASSUMPTION OF STATE 404 PROGRAM

**Location Visual:** Water Management Districts of Florida

### Expanded Facts:

1. A complete assumption package must include:
  - Letter from the Governor requesting the program
  - A complete program description (e.g., regulatory cross-walk, wetland delineation methodology)
  - Attorney General Statement
  - Memorandum of Agreement between the State and EPA
  - Memorandum of Agreement between the State and the Corps

- Copies of all applicable State statutes and regulations

#### *Timelines*

2. Florida's timeframe for finalizing rulemaking is uncertain, and the timing of the formal submission of their 404 assumption request with respect to their rulemaking process is also uncertain.
3. Legal challenges to Florida's rule are generally viewed as likely, which could add 60 days for a single challenge to several months for multiple challenges.

4. EPA has 120 days to review a state's assumption request. **\*\*This includes a requirement for at least a 45-day public comment period after Federal Register notification, and at least one public hearing.\*\***

EPA receives state's request to assume program

EPA determines program submission is complete & so notifies state

EPA provides copies of State's submission to Corps, FWS, & NMFS (HQ & regional)

- Corps, FWS, & NMFS comments due within 90 days

EPA initiates consultation with tribes per Executive Order (timeline not specified)

Notices of complete application: Federal Register, newspapers, interested parties

- FR Notice triggers 45-day public comment period
- Public hearing(s) 30+ days after FR Notice publication
- **\*\*Florida has requested in writing that EPA hold multiple public hearings.\*\***

EPA reviews & considers comments received.

- Prepares summary of significant comments, response to public comments
- Responds individually to comments from Corps, FWS, & NMFS

If EPA approves, notify state & publish approval in Federal Register

#### *ESA*

5. ESA § 7 consultation is triggered by federal agency actions. Incidental take *statements* are a possible outcome of § 7 consultation (vs. incidental take *permits* under §10).
6. Only a federal Service (FWS or NMFS) can issue biological opinions and incidental take statements or permits.
7. Under ESA § 7 regulations a federal action agency may designate a non-federal representative to conduct informal consultation or prepare a biological *assessment* (vs. opinion) (50 CFR § 402.08). If a permit or license applicant is involved and is not the designated non-Federal representative, then the applicant and Federal agency must agree on the choice of the designated non-Federal representative. The ultimate responsibility for compliance with section 7 remains with the federal agency.
8. ESA § 10 consultation is triggered by actions of non-federal entities (e.g., states). ESA regulations require writing a Habitat Conservation Plan (requiring time and resources) when seeking an incidental take permit, and FWS policy also involves internal consultation, taking additional time. ESA § 10 consultation can result in an incidental take *permit* (vs. incidental take *statement* under §10).
